Subject: Recording witness interviews

Hello Ms. Faulk,

I write this email in support of proposed CR 4.11. As a defense investigator, I know the value of recording interviews. Not only is it better for all involved, it also is more time efficient and a better record of all that is said and also how it is said. On a personal level, it saves my wrist and allows me to more effectively participate in the interview, which can only help the cases of those accused of crimes.

Thank you for your time on this matter and for reading my email,

Janna L. Richards

Investigator

Associated Counsel for the Accused
